

Surgery Instructions

Now that your surgery has been scheduled at St. Croix Regional Medical Center, there are some important instructions you need to follow carefully. Please contact the Perioperative Nurse Educator if you have any questions.

Your surgery is scheduled for:

DATE OF SURGERY: _____

ARRIVAL TIME: ____:____ AM PM

Your procedure time may change due to cancellations or scheduling changes. You will receive a call if the time of your procedure changes.

The Perioperative Nurse Educator will call you approximately one (1) week before your surgery with your arrival time. If you have questions, please call 715.483.0533, *option 1*.

If your primary care provider is a St. Croix Health provider, a surgery scheduler will assist you in scheduling your preoperative history and physical with your primary care provider.

If your primary care provider practices outside of St. Croix Health, the St. Croix Health scheduling department will provide you with a preoperative instruction sheet to take with you to give to your primary care provider. You must be seen for your pre-op appointment seven (7) - ten (10) days prior to your surgical date. Your preoperative history and physical will need to be faxed back to us at 715.483.0519.

DATE OF PRE-OP PHYSICAL: _____

TIME: ____:____ AM PM

PROVIDER: _____

LOCATION: _____
